Passionate Full Stack Developer and IT student with skills in HTML, CSS, JavaScript, React, and backend technologies. Strong problem-solving abilities with a focus on delivering high-quality, scalable, and efficient solutions. Eager to apply technical expertise in an entry-level Software Developer role and contribute to innovative projects.

## Portfolio

[Sakthidharan E | Software Developer Portfolio](#)

## Projects

### SmartFleet AI – Intelligent Infrastructure for Modern Logistics

Developed a full-stack fleet and logistics management system for real-time vehicle tracking and operational automation. Implemented features including toll gate management, document tracking with expiry and missing alerts, and driver-vehicle assignment. Built a centralized dashboard with real-time data handling, analytics, and secure authentication using MERN stack technologies.
